Are you looking for access to the U.S. market?

WTVS Syndications is a prime source of entry for Canadian programs to the PBS system. PBS attracts over 100 million viewers in Canada and the United States each week.

In the last year, WTVS has established strong ties with major private Canadian production houses, as well as the CBC, The National Film Board of Canada and TVOntario.

Canadian productions which have already been made available to the PBS system through WTVS Syndications include: *Cities, Chautauqua Girl, The Polka Dot Door and Today's Special.*

Through its Toronto office, WTVS is prepared to work with Canadian producers with an eye on the U.S. market either as an entry point to the PBS system or as a co-producer.

Only one thing should come between you and your broadcast markets.

Filmoption International knows that one of a producer's most crucial concerns is the area of distribution. As a direct link between Canadian product and the international broadcast market, we've virtually eliminated the sub-agent middleman, and this translates into better returns for the investor. From drama to documentary programming, from variety to children's fare, we're Canada's link with the global broadcast industry.

So why let anything else come between us ?

How do you cast a financial consultant?

Essentially, you want to be free to handle the creative aspects of your business. But to devote your attention to that, you need somebody to clear away the financial complications.

That's a job we do for performers, writers, production houses, investors, theatre owners, and others in the industry – nationally and internationally. We structure deals, business plans, tax formulas, royalty arrangements. We do audits, personal financial management, personal and corporate record keeping – and more. The business of entertainment is complex.

And because of that you must cast your financial consultant as carefully as you cast anyone else.

For further information contact Alan Lavine, Syd Mamott, Sam Skurecki or Lawrence Senders at (416) 977-2555.

STUDIO III, the largest sound studio in western Canada. That means your show can go on location from the first scene to the last take, at a price that makes sound sense.

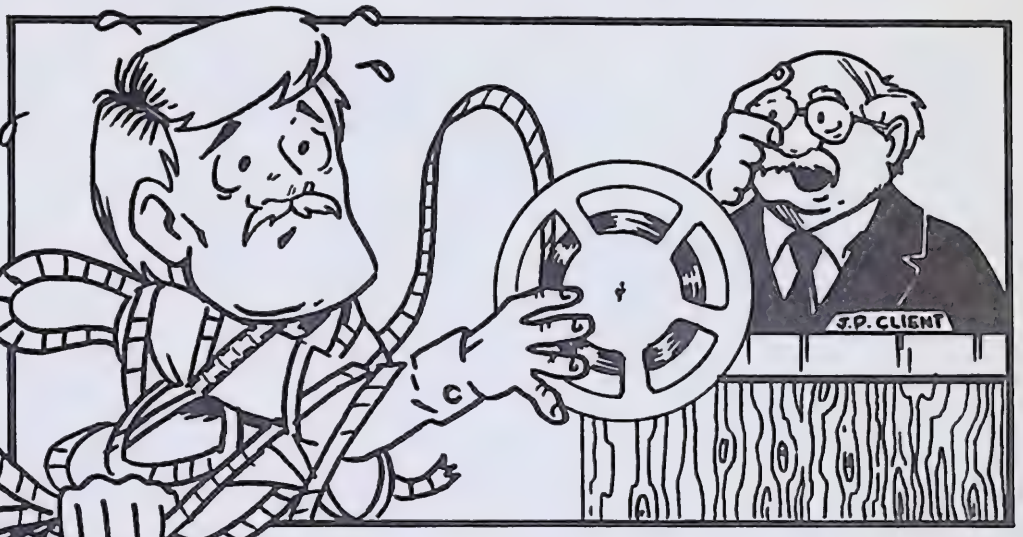
IF YOUR REEL DOESN'T LOOK GOOD, NEITHER DO YOU!



TRY "PHOTOGARD" COATING TO GIVE YOUR FILM A LASTING PERFORMANCE.

• Commercials • Trade & industrial films • Sample reels • Educational

You may have the best creative track record in the business, but if your sample reel isn't up to par, it can certainly reflect on your performance in the eyes of potential clients!

Protect your reels with "Photogard", a unique coating process that prolongs the life of new films and injects new life into old ones.

"Photogard" is highly resistant to abrasion, static electricity, finger and grease prints, water and a wide variety of solvents.

If your reel has some older film, "Photogard" will fill in base and emulsion scratches in the top layer. Old film must be inspected, repaired and ultrasonically cleaned before coating.

The cost is pennies a foot, and we work fast, up to 100,000 feet of film a day.

FILM CLASSIFICATION

BRITISH COLUMBIA
Film Classification
Ministry of Attorney-General
140 E. 8th. Ave.
Vancouver, B.C. V5T 1R7
(604) 660-6821
Director: Mary-Louise McCausland

Film Classification
(a) General Entertainment — the content of these films should not be found offensive to the general public.
(b) Mature Entertainment — the word "mature" was a deliberate choice, designed to act as a guide to parents. The subject matter of a film in this classification or the way in which it is portrayed may not be appropriate for some young people. There is no age restriction for this classification, but warnings are often added.
(c) Restricted Entertainment — because of the nature or contents of these films, persons under the age of 18 are not allowed to attend unless they are accompanied by a parent or other responsible adult who must remain with the underaged person during the entire film. As a condition of admittance, the theatre has the right to require the accompanying adult to sign a form accepting responsibility for the underaged person. (Notes from parents giving permission for a child to see a Restricted film are not acceptable.)
(d) Warnings — to help the movie-goer to choose his or her entertainment, warnings about possibly offensive material are often added to the classification. These notes may include such statements as "frequent coarse language and swearing", "some nudity and suggestive scenes", or "occasional frightening and violent scenes".

Film Classification
Films are classified and censored to reflect the level of tolerance indicated by the community standards of the Ontario public. In Ontario there are four designations within the classification system:
"Family" — Films suitable for all.
"Parental Guidance" — Parents are advised that theme or content may be more mature than "family" films. However, children are permitted unsupervised access and the decision of film suitability lies entirely with the parents. Films in this category may contain limited violence, such as hand-to-hand fighting, the use of weapons without excessive bloodletting, restrained portrayal of accident or disaster. They may also contain scenes involving very brief or casual nudity, romantic involvement which is not sexually explicit. Mild use of coarse or vulgar language.
"Adult Accompaniment" — Restricted to 14 and over unless accompanied by an adult. (Suitable for 14 and over.) Theme or content may be more mature and in the opinion of the Board not suitable for most children 13 and under. Films in this category may contain limited nudity and sexual involvement. There may also be sexual innuendo, suggestive or vulgar dialogue, coarse allusion and offensive language. There may be a higher degree of violence including bloodletting. Violence and nudity will not be gratuitous but should be integral to the plot.
"Restricted" — Admittance limited to those of 18 years and over. Films may become restricted if they contain scenes of heavy violence, torture, or abuse, extremely graphic depiction of accident or horror, full nudity, sexual activity or undue use of offensive language. Films which promote controversial or antisocial lifestyles might also be restricted depending on format and force of presentation.
Eliminations: Each film is judged on its own merits. However, very graphic or prolonged scenes of violence, torture, bloodletting; explicit portrayal of sex/violence, e.g. rape, sexual abuse, sexual exploitation or children, explicit portrayal of sexual activity, undue or prolonged emphasis on genitalia and ill-treatment of animals would normally be considered to contravene community standards and are scenes for which eliminations would normally be requested.
Rejected: Instances of rejection of an entire film are very rare and would normally occur only where required eliminations were so extensive as to ruin the continuity of the film.
Although language code is generally set aside for Restricted classifications, extremes in dialogue or vocabulary are a concern.
Guidelines are under continual reassessment and review.

Editor's Note: Population figures from the last Census (1981). Other information supplied from within the industry.

+ = Census Metropolitan Area (CMA) — The main labour market area of an urbanized core (or continuously built-up area) having 100,000 or more population.

* = Census Agglomeration (CA) — The main labour market area of an urbanized core (or continuously built-up area) having between 10,000 and 99,999 population.

British Columbia is going to be a very popular place in 1986. But we'll always find the place for your motion picture. Like we did with "Rocky IV" and "The Boy Who Could Fly."

Whether you're interested in crowded city streets or wilderness mountain peaks, our Film Promotion people can help pave the way to a smooth shooting schedule in 1986.

Even if you've got your sights on EXPO 86, our spectacular world's fair.

For assistance with initial scouting, photographs, maps and other budget and production information, call us at (604) 660-2732.

Then leave everything in our hot little hands.

How to get your hands on a hot property without getting burned.

Canadian Commission for Unesco
Secretary-General: Shirley Thomson
Information Officer: Carmélia Quinn

The Canada Council was created by an Act of Parliament in 1957. Under the Canada Council Act, the object of the Council is "to foster and promote the study and enjoyment of, and the production of works in, the arts." It offers a program of financial assistance and special services, mainly to professional artists and arts organizations. The Council also maintains the secretariat for the Canadian Commission for UNESCO and has some responsibility for promoting Canadian culture abroad. The Council reports to Parliament through the Minister of Communications and appears before the Standing Committee on Culture and Communications.

Requests for support for film and holography projects are accepted in the Media Arts Section. Council assistance for artists working in film and holography includes grants for production, grants to non-profit film and holography organizations, grants for special projects and workshops in film and holography and for travel and exchange, as well as video equipment loans and videotape grants.

Film Production Grants: Independent filmmakers who have directed at least one film or professional artists who have produced a body of work in video may apply for a Film Production Grant of up to $50,000 to cover direct costs of a film production. The grants are intended to support experimentation with form, content or technical process within a wide range of genres: experimental, documentary, dramatic, personal narrative, animation, computer animation, etc. The Council required that filmmakers have total editorial control over the proposed production. Therefore, films being produced, co-produced or sponsored by another federal or provincial government agency are not eligible. Instructional projects, pilots for commercial or educational television and industrial film projects are also ineligible. In the case of dramatic feature-length films, eligibility is limited to lowbudget works which are of an innovative or experimental nature and whose other funding sources do not compromise the filmmaker's artistic control over the project.

Professional filmmakers can apply for assistance to the Aid to Artists Program for support for pre-production activities. The Exploration Program may support applicants who wish to direct their first 16mm production.

In Any Vision Calgary Has It All!

On 'Finders Keepers' starring Lou Gossett Jr, Beverley D'Angelo and Michael O'Keefe; Director Richard Lester answered the question

WHY CALGARY?

"Well, it's my third time in Calgary, and I was very well treated and very happy on 'Superman III'." The co-operation we had from the Alberta Government and the City of Calgary was marvelous. From the police to the townspeople, everyone was so generous in allowing us to come in and interfere with their lives. It seemed to be a wonderful place to shoot.

You have a wide variety of scenery within an hour's drive of Calgary and plenty of hotel rooms for a crew. I enjoy working with the Canadian members of the crew. I know many of the people in each grade. It made for a nice homecoming and you don't have to introduce yourself on the first day of shooting. There are many reasons, certainly economics cannot be ruled out. It is considerably cheaper without any loss of quality".

Calgary has no retail sales or accommodation tax, and has regular air service to most major cities in the U.S.

A division of Public Archives Canada with exclusive authority for acquisition and conservation of film, videotape and sound recordings in the national interest, and with authority to document and make available such resources for scholarly and cultural purposes. Initiated as a project of PAC in 1969, the NFTSA was formally established by Cabinet in January 1976 with a mandate to co-ordinate and consolidate the archival collections of the National Film Board and the Canadian Broadcasting Corporation with those of other Government departments and agencies (including films made with the assistance of the Canadian Film Development Corporation and the Canada Council). At present, the NFTSA holds approx. 50,000 films and television programs, as well as approx. 50,000 hours of sound recordings.
The NFTSA also incorporates an international collection of films and videotapes important in the art and history of the media, and a library of books (c.9,500), periodicals (c.350 current titles), information files (c.86,000), stills (c.250,000), posters (c.7,000) and scripts (c.1,000). The NFTSA collaborates with film library and film study organizations across the country to make these resources as accessible as possible, consistent with the observance of rights.

The Canadian Film Development Corporation (CFDC) was established by the Canadian Government in 1967 "to foster and promote the development of a feature film industry in Canada."

In 1983, the CFDC, now called Telefilm Canada, was asked to administer the multi-million dollar Canadian Broadcast Program Development Fund, making the Corporation the Federal Government Agency responsible for private sector development in both the television production and film industries.

The Corporation, which does not produce or distribute programming itself, carries out its mandate by working with individual production, distribution, and exhibition companies, as well as with Federal and Provincial Government ministries and cultural agencies.

The Canadian Broadcast Program Development Fund
On July l, 1983, the Government of Canada established a special Canadian Broadcast Program Development Fund intended to promote an increase in the quantity of high quality Canadian television productions in the categories of drama, children's programming, and variety. To achieve this goal, $254 million was earmarked to help develop and support the private sector television production industry in Canada: $34 million in the first year of operation, $50 million in 1984/85, $54 million in 1985/86, $56 million in 1986/87, and $60 million in 1987/88.

Other Assistance Available
Telefilm Canada offers five additional programs: the Script Development Program assists the writing of screenplays for feature films and TV drama by Canadian writers; the Interim Financing Program allows producers to commence production before all the equity financing is in place; the Equity Investment Program encourages the production of fiction or documentary films of a distinctly Canadian nature; the Promotion and Advertising Program supports the marketing and launching of individual theatrical feature films in Canada; the Test Marketing Program supports test marketing of individual Canadian theatrical feature films in Canada. Direct financial support is also given for various industry functions.

Co-Productions
Canada has official co-production treaties with eight countries:
France, Israel, Italy, the Federal Republic of Germany, the United Kingdom, Belgium, Algeria and Spain. Such treaties allow producers from two or more countries to share in the creative, technical, and financial aspects of a production, at the same time enjoying the benefits accorded a national production in each country, such as direct aid, tax incentives, and quota systems.

We're closer than you think.

Telefilm Canada, at the request of the Minister of Communications, is responsible for the administration of these treaties and those projects produced under them. The Corporation receives and evaluates project applications for recognition as official co-productions. Based on Telefilm Canada recommendations, the Minister of Communications either approves or rejects such applications.

While Telefilm Canada advises the Minister on all official co-productions, it does not necessarily participate financially in them. The Corporation's participation is based on a more detailed analysis of the merits of the production.

Filmmakers use these adjectives and many others to describe Montréal, the Europe next door.

They are equally impressed with Montréal's no-nonsense cooperation with filmmakers.

Through a special city agency, CIDEM-Cinéma, Montréal provides a one-stop-shop for filmmakers, thereby eliminating red tape.

CIDEM-Cinéma does everything from scouting irresistible locations to arranging for the closing of public streets. It will find skilled crews for you and even brief you about tax shelter provisions.

And that's the way it should be in the city that hosts the Montréal World Film Festival – the only competitive film festival in America recognized by the International Federation of Film Producers Associations.

The Association was incorporated as a non-profit body in the fall of 1973. At that time it was a small group of Alberta producers who were the Active members, plus various Associate members. In its twelfth year, the Association has grown to include active members, corporate affiliates (suppliers, educational institutes, crown corporations, etc.) and associates (individuals who may not be engaged full time in motion pictures but who have a special interest in the industry, or individuals who are employees of active member companies and who wish to be personally affiliated with the Association). The total membership involves more than 500 people in the Association's activities. A quarterly magazine, in English, goes to members, associates, and the general public. Seminars and workshops are held several times a year, and the Association sponsors an annual film festival and symposium.

Pioneer of the Year Award
In 1952 the C.P.P. marked the Golden Anniversary of the Silver Screen in Canada, dating it from the establishment of the first successful motion picture theatre — the Electric of John Schulberg on Cordova Street, Vancouver, which he opened in the fall of 1902. At the celebration banquet, held in the Royal York Hotel, Toronto, Schulberg, Jule Allen of Toronto, George Ganetakos of Montreal, A. J. Mason of Springhill, Nova Scotia, L. Ernest Ouimet of Montreal and Fred G. Spencer of Saint John, New Brunswick, were honored as pre-1910 pioneers who had done the most to advance the motion picture as a popular form of entertainment in its early days. The next year, the Pioneer of the Year Award was inaugurated. Those who have received it to date are:
1953: John J. Fitzgibbon, Sr. cbe
1954: Jack Arthur, mbe
1955: Louis Rosenfeld

Each motion picture theatre in Canada, whether individual or a chain, is obligated to pay Performing Rights Organization of Canada Limited an annual licence fee for the right to perform music in its repertoire, or the repertoires of foreign performing rights organizations represented in Canada by PRO Canada. The licence fees have been collected from theatres on behalf of writers, composers and music publishers since 1966.
The fees collected must be approved annually by the Copyright Appeal Board in Ottawa. The courts uphold the fact that it is unlawful to operate a motion picture theatre in Canada without a PRO Canada licence for the performance in Canada of dramatic-musical works. Tariffs are printed in the Canada Gazette.

The following fees are for 1985:
Cinemas and Other Motion Picture Theatres
For a theatre licence covering operations at any time during the year, the annual fee is charged on seating capacity as follows:

Seats	Rates per seat per annum
499 seats and under	14.5 cents
500 to 799 seats	17.4 cents
800 to 1,599 seats	21.7 cents
1,600 seats and over	28.9 cents

The seating capacity of Drive-In Theatres shall be three times the maximum number of automobiles which may be accommodated at any one time.
Theatres operating three days or less per week shall pay one-half of the above rates.
For theatres operating for less than 12 months in each year, the fee payable shall be reduced by 1/12th for each full month during the year in which no operations occur.
Minimum fee: $14.50
A licence obtained under this item of the tariff shall not be deemed to authorize any concert, recital of classical music or live performances when the exhibition of one or more films is not an integral part of the program. These performances shall be licensed under Tariff Item 5.

The Heart Award

In 1947 the late Peter Campbell, then president of the Maple Leaf Baseball Club, was singled out by Variety for his great fund raising efforts and presented with a gift to symbolize it. The following year Conn Smythe, president of the Maple Leaf Baseball Club, was similarly honoured. Variety in Action

In Ontario during the past six years, Tent 28 has raised and allocated close to 12 million dollars as its contribution to the "greatest children's charity in the world". Fund-raising activities include an Annual Bike-A-Thon, two Bingo operations, Annual Gourmet Dinner, a Golf Tournament, a Telethon, an Auction, and a Blue Jays ball game.

Tent 28 gives a large measure of financial support to the Variety Village Electro Limb Centre, and in January l981 a new Variety Village Sports Training and Fitness Centre was opened. Help also extends to a long list of diverse recipients - the research program of the Ontario Society for Crippled Children, the Hospital for Sick Children Cardiac Catheterization Lab, the Mount Sinai Hospital Ultra Wave Diagnostic equipment, the Ontario Community for the Deaf - to name a few.

The Toronto Blue Jays baseball team have designated Variety Club as their charity, and the Variety Club of Ontario is host to an annual "Baseball's Back In Town" luncheon on the eve of opening day. There are now forty-four Variety Sunshine Vans in operation in Ontario, which are custom-built according to the disability of the children to be transported.

In recent years the food industry has become a great supporter of Tent 28 through their Cash-For-Kids program. In 1984 executives of the food industry estimated a contribution of over one million dollars through their efforts on behalf of Tent 28.

The next major project was the Paul Nathanson Centre for Children, a 23.5 acre estate in Maple, Ontario, donated by his widow, Sylvie Nathanson. A committee established its use as an autistic residential school.

Canadian Film Institute

Ottawa, Ontario K1N 5X6

The Institute collects, preserves, organizes and makes available documentation on Canadian and international motion pictures - mostly feature films. There is a comprehensive book library, several hundred screenplays, a large collection of soundtrack recordings and tape-recorded interviews with film makers, and a periodicals section made up largely of leading English-language film journals.
The Ontario Film Theatre presents film showings covering a wide range of material and has become an established part of Toronto's cultural life with its seasons of films from abroad, directors' series, historical surveys and current cinema programs. The auditorium of the Science Centre functions as the Ontario Film Theatre in the evenings. It has 482 seats, translation booths, an ideal stage area for discussions, a projection booth equipped with l6, 35 and 70mm projectors and the Dolby sound system as well as 3-D equipment. The OFT also has the use of three l6mm viewing theatres at the Science Centre when required. There is also a Cinema Bar open on those evenings when directors or other speakers attend the showings of their films.
The Institute is prepared to assist all communities which desire to start film theatre programs, providing facilities are available and local organising committees are formed.
Quarterly publication: Film News; occasional publications of monographs on cinematic subjects (in English).
Collections of films produced by the Ontario government; other copies on deposit with the National Film Archive, Ottawa. Other films on video cassettes available for study on the premises.

The Academy of Motion Picture Arts and Sciences is an honorary organization composed of more than 4,500 motion picture craftsmen and artists.

Since its founding in 1927, the organization's stature has grown internationally until today the Academy provides unparalleled incentive for higher levels of technical and professional achievement among all branches of filmmaking and has become the cinema's most effective single ambassador.

It is widely recognized that the motion picture is one of our most important sources of information, education and entertainment. This, and the constantly rising artistic merit of films produced throughout the world, are due, in part, to the Academy.

The Academy is a non-profit organization whose field of activity does not include economic, labor or political matters.

PURPOSES

The purposes of the Academy are to advance the arts and sciences of motion pictures; foster co-operation among creative leaders of cultural, educational and technological progress; recognize outstanding achievements; co-operate on technical research and improvement of methods and equipment; provide a common forum and meeting ground for various branches and crafts; represent the viewpoint of the actual creators of the motion picture and foster educational activities between the public and the film industry.

HISTORY

The Academy was organized in May 1927 as a non-profit corporation, chartered under the laws of California. Its 36 charter members included production executives and film luminaries of the time.

The Academy moved into its present quarters in Beverly Hills in 1975. The seven-storey building includes the Samuel Goldwyn Theatre, Margaret Herrick Library, Administrative and Publications offices.

Scout Alberta

And, you'll shoot it!

Scenery and talent! Crews and equipment! Amazing cost-saving advantages! You'll find the whole shooting match in Alberta. We've been helping producers make movies here for over 70 years including Little Big Man, Dr. Zhivago and Superman III. Did you know Alberta is the only province in Canada that doesn't collect sales tax? Things like accommodation, food, gas, retail and travel expenses are all free of provincial tax — so you can save really big on your bottom line. And the exchange rate does wonders with the American dollar.

Affiliated with Association des producteurs de films et de video du Quebec (APFVQ).

The ACFTP was formed to speak for and serve the interests of Canadian film and television producers. Together with the Association des producteurs de films et de video du Quebec, it now represents the majority of active, on-going, entrepreneurial Canadian production companies.
Its members are the companies which develop the projects, find the financing, negotiate with exhibitors, distributors and broadcasters and create the jobs by taking the risks inherent in producing programming.
Because its constituency is limited to the entrepreneurial producer it can respond swiftly and without qualification to those issues that affect its operations and its very livelihoods.
It acts as a clearing house for matters of concern to members and keeps members informed of policy, legislation and events that affect them. It is dedicated to raising the profile of the production industry in Canada and abroad. It ran a very successful conference for investment industry professionals and several other seminars are planned.
It has a permanent secretariat in Toronto and enjoys reciprocal facilities with the APFVQ in Montreal and formal links are being established with producers' associations around the world.

Membership
An Applicant must be an established Canadian business entity with permanent staff and/or office and must have produced feature films or mass audience television programs on a regular basis for the two-year period preceding application. Further, the Applicant must be entrepreneurial in nature as opposed to being employed for hire by other producers.
There is also a separate class of membership for those companies of like interests who do not necessarily qualify for full membership, such as financiers, packagers or companies in production for less than two years.
Full membership fees:
Annual dues..... $600.00
Associate membership fees:
Annual dues $1,000.00

Toronto, Ont. M4Y 2N7
(651 Yonge St., 3rd Fl.)

The Canadian Film & Television Association (CFTA) was founded in 1948. CFTA has in excess of one hundred and seventy-five corporate members including production companies, commercial houses, animation studios, audio-visual specialists, laboratories, optical houses, videotape and sound recording studios, post-production facilities, distributors and suppliers to the industry.

CFTA represents over seventy-five per cent of Canada's independent film, tape and slide production industry, in annual sales volume and numbers employed. CFTA members supply their production and services to film and television broadcasting outlets in Canada and internationally, to advertising agencies, to private corporations and to government agencies. The Association is the representative voice of the private sector of this industry in Canada.

CFTA maintains a close working relationship with the regional industry associations including Alberta Motion Picture Industries Association (AMPIA), Association des Producteurs de Films et de Videos du Quebec (APFVQ), British Columbia Film & Video Industry Association (BCFIA), Manitoba Film Producers Association (MFPA), Saskatchewan Motion Picture Industry Association (SMPIA), Atlantic Film Industry Association, and as of January 1, 1985, incorporates the membership of the national feature film organization Canadian Association of Motion Picture Producers (CAMPP).

CFTA and CAMPP share a secretariat and a national Executive Director in Toronto and appoint local representatives across the country.
